

Table of Contents

1	Practice Settings & Roles of Orthopaedic Nurses	1
	<i>Susan C. Ruda, MS, APN, RN, NP-C, ONC</i>	
	Hospital, Long-Term Care, and Extended Care Facilities	2
	Combined Inpatient and Office Settings	5
	Office and Outpatient Setting	7
	Other Settings and Roles	7
2	Anatomy & Physiology	11
	<i>Linda Alitzer, RN, MSN, ONC, D-ABMDI</i>	
	Anatomic Terminology	12
	Bone.....	13
	Muscle.....	14
	The Skull.....	16
	The Shoulder	17
	The Upper Extremity.....	18
	The Thoracic Cage.....	20
	The Spine.....	21
	The Pelvic Girdle	22
	Lower Extremity	23
3	Musculoskeletal Assessment	33
	<i>Debra M. Palmer, DNP, FNP-BC, ONP-C®</i>	
	Health History	35
	Physical Exam Techniques of the Musculoskeletal System.....	37
	Head-to-Toe Musculoskeletal Physical Assessment.....	43
	Considerations Across the Life Span.....	61
	Assessing Sports Injuries.....	62
4	Diagnostic Studies in Orthopaedics	67
	<i>Deborah A. Brown, MSN, APRN-BC, ONP-C</i>	
	Blood Tests	68
	Urine Tests.....	87
	Radiographic Tests.....	92
	Special Diagnostic Studies	104

5 Perioperative Patient Care.....113

Patricia A. Krieger, MSN, RN, ONC, CNOR

Patient Safety in the Operating Room.....	114
Collaborative Efforts	114
Preoperative Assessment and Planning	116
Intraoperative Implementation	119
Wound Classification.....	123
Anesthesia.....	123
Positioning.....	126
Electrosurgery	130
Tourniquet Use	130
Surgical Counts.....	131
Medications	132
Fluid Balance.....	132
Implants	133
Bone Cement.....	133
Bone Grafts	134
Radiographic Safety	134
Dressing and Casting	135
Postoperative Care and Evaluation.....	135
Postoperative Complications.....	136
Discharge.....	137

6 Orthopaedic Effects of Immobility.....141

Elizabeth Turcotte, MSN, RN-BC, ONC

Integumentary Issues	142
Respiratory Issues	147
Cardiovascular Issues.....	149
Musculoskeletal Issues	150
Neurosensory Issues	153
Metabolic/Gastrointestinal Issues	153
Genitourinary Issues	155
Psychosocial / Mental Status	156

7	Orthopaedic Pain	159
	<i>Donna M. Barker, APRN, ANP-BC, ONC, RN-C</i>	
	<i>Patti Murray, DNP, RN-BC</i>	
	Definitions of Pain	160
	Typical Pain Process	161
	Classifications and Causes of Pain	162
	Myths and Ethics in Pain Management	163
	Pain Treatment	166
	Nonpharmacologic and Pharmacologic Pain Management	169
	Classification of Analgesics	177
	Special Pharmacologic Considerations	182
	Managing Pain in Special Orthopaedic Populations	182
8	Orthopaedic Complications	191
	<i>Rebecca Parker, MSN, RN, CNL, ONC</i>	
	Delirium	192
	Pressure Ulcers	194
	Constipation	197
	Hemorrhage/Significant Blood Loss	198
	Venous Thromboembolism	200
	Fat Embolism Syndrome	202
	Compartment Syndrome	204
	Delayed Union/Nonunion	206
	Nosocomial Surgical Site Infection	207
	Hospital Acquired Pneumonia	208
	Postoperative Nausea and Vomiting	210
	Postoperative Urinary Retention	211
9	Orthopaedic Infections	217
	<i>Linda R. Greene, RN, MPS, CIC</i>	
	Osteomyelitis	218
	Septic Arthritis	222
	Prosthetic Joint Infections	224
	Bone and Joint/Extrapulmonary Tuberculosis	226
	Skin and Soft Tissue Infections	227
	Healthcare-Associated Infections	229

10 Therapeutic Modalities..... 233

Cathleen E. Kunkler, MSN, RN, ONC, CNE

Ambulatory Devices and Techniques	234
Braces/Orthotics/Orthoses.....	239
Casts.....	241
Continuous Passive Motion Machine.....	249
External Fixators	250
Traction.....	256
Wheelchairs	259

11 Pediatric & Congenital Disorders 263

Mary Jane Smalley, MSN, CRNP, CPNP-PC

Achondroplasia.....	264
Arthrogyrosis Multiplex Congenita	267
Blount's Disease.....	269
Cerebral Palsy.....	272
Clubfoot	278
Developmental Dysplasia of the Hip	280
Duchenne's Muscular Dystrophy.....	283
Genu Valgum/Genu Varum	286
Legg-Calve-Perthes Disease	288
Leg Length Discrepancies	291
Metatarsus Adductus	293
Myelomeningocele	294
Neurofibromatosis	299
Osgood-Schlatter Disease.....	302
Osteogenesis Imperfecta	303
Pediatric Fractures	307
Physical Abuse.....	310
Slipped Capital Femoral Epiphysis	313
Torsional Issues	316

12 Special Geriatric Considerations321

Laura M. Criddle, PhD, RN, ACNS-BC, ONC, FAEN

Factors that Influence Aging	323
The Impact of Aging on Body Systems.....	324
Injury Prevention and the Geriatric Patient	332

13 Arthritis & Connective Tissue Disorders	335
<i>Dottie Roberts, MSN, MACI, RN, CMSRN, OCNS-C®, CNE</i>	
Juvenile Arthritis	336
Rheumatoid Arthritis	340
Osteoarthritis	346
Polymyalgia Rheumatica	350
Rheumatic Fever	352
Gout	354
Lyme Disease	356
Seronegative Spondyloarthropathies	359
Systemic Sclerosis	364
Polymyositis and Dermatomyositis	366
Systemic Lupus Erythematosus	368
Fibromyalgia Syndrome	371
14 Metabolic Bone Conditions	377
<i>Lori E. Abel, MEd, RN, ONC</i>	
Osteoporosis	378
Osteomalacia	382
Rickets	384
Primary Hyperparathyroidism	386
Secondary and Tertiary Hyperparathyroidism	388
Hypoparathyroidism	388
Paget's Disease (Osteitis Deformans)	390
15 Orthopaedic Trauma	393
<i>Kelly A. McDevitt, RN, MS, ONC</i>	
Statistics	394
Special Patient Populations	395
Psychosocial Impact of Trauma	396
Energy and Mechanism of Injury	396
Emergency Response	398
Bone Structure	399
Spine Fractures	401
Pelvic Fractures	409
Long Bone Trauma: Femur/Hip Fractures	411
Amputations	412
Special Traumatic Injuries and Wounds	413
Common Sports Injuries: Soft Trauma	415
Common Sports Injuries: Dislocations/Subluxations	417
Strains	418
Sprains	419

16 Tumors of the Musculoskeletal System..... 423

Colleen R. Walsh, DNP, RN, CS, ONP-C, ACNP-BC

Benign Lesions.....	424
Primary Malignant Tumors.....	428
Primary Sarcomas.....	430
Bone Metastasis.....	439
Multiple Myeloma.....	441

17 The Spine 447

Angela N. Pearce, RN, MS, FNP-C, ONP-C

Common Spinal Diagnostic Studies.....	448
Scoliosis.....	448
Kyphosis.....	453
Herniated Nucleus Pulposus.....	454
Degenerative Disc Disease.....	460
Spinal Stenosis.....	461
Spondylolysis and Spondylolisthesis.....	463
Failed Back Surgery Syndrome.....	465
Spinal Fractures.....	467

18 The Shoulder475

Rebecca L. Buti, MS, ANP-C, ONP-C

Impingement Syndrome (Tendinitis).....	476
Rotator Cuff Tears.....	479
Arthritis.....	482
Shoulder Instability.....	486
Adhesive Capsulitis (Frozen Shoulder).....	491
Fractures of the Shoulder.....	494
Sprains, Strains, Contusions, and Separations.....	498
Sprengel's Deformity.....	501
Congenital Dysplasia or Hypoplasia of the Glenoid.....	503
Referred Visceral Somatic Pain.....	505

19 The Elbow 509

Rebecca A. Perz, MSN, NP-C, ONP-C

Anatomy and Key Points Related to the Elbow 510

Lateral and Medial Epicondylitis 512

Pitcher’s Elbow 513

Olecranon Bursitis 514

Distal Biceps Tendon Rupture 515

Radial Head, Monteggia, Coronoid Process, and Olecranon Fractures 516

Subluxation/Nursemaid’s Elbow (Pediatric) 517

Supracondylar/Distal Humerus Fractures 518

Elbow Dislocation 520

Nerve Entrapments 521

Osteochondritis of the Capitellum 522

Elbow Arthroplasty 523

20 The Hand & Wrist527

Rebecca A. Perz, MSN, NP-C, ONP-C

Common Hand and Wrist Treatment Modalities 528

Mallet Finger 529

Boutonniere and Swan Neck Deformities 530

Gamekeeper’s Thumb 531

Nail Bed Injuries 532

Thumb Fractures – Bennett’s and Rolando’s 533

Boxer’s Fracture 534

Replantation 535

Dupuytren’s Contracture 537

Trigger Thumb or Finger 538

De Quervain’s 539

Ganglion Cyst 540

Arthroplasty 541

Scaphoid Fracture 542

Distal Radius Fractures – Colles’ and Smith’s Fractures 543

Carpal Tunnel Syndrome 546

21 The Hip, Femur, & Pelvis..... 549

Barbara Kahn-Kastell, RN, ONC

Hip Fractures	550
Hip Arthroplasty	552
Hip Resurfacing Arthroplasty	557
Hemiarthroplasty/Bipolar Replacement	559
Hip Arthroscopy	561
Femoro-Acetabular Impingement	562
Hip Dislocation	563
Hip Girdlestone Pseudarthrosis	565
Proximal Femoral Osteotomy	566
Femoral Shaft Fractures.....	567
Pelvic Fracture	568

22 The Knee571

Jack Davis, MSN, RN, ONC

Penny Saulog-Wendel, BSN, RN, ONC

Osteoarthritis of the Knee.....	572
Overuse Syndromes of the Knee.....	578
Trauma and Soft Tissue Injuries of the Knee.....	580
Pediatric Knee Conditions.....	583

23 The Foot & Ankle	587
<i>Kate Hill, RN</i>	
<i>Marianne K. Ostrow, RN, MSN, ONC</i>	
Ankle Sprains	588
Achilles Tendinitis	590
Achilles Tendon Rupture	591
Fractures	592
Plantar Fasciitis	594
Pes Planus	595
Pes Cavus	595
Foot Drop	596
Hallux Valgus	598
Interdigital Neuroma	599
Hammertoe Deformity	600
Mallet Toe Deformity	601
Claw Toe Deformity	601
Corns	602
Verruca Plantaris	603
Onychocryptosis	604
Onychomycosis	605
Amputations	606
Osteoarthritis	607
Charcot Foot	608
The Diabetic Foot	609
24 The Orthopaedic Nursing Certification Exams: Strategies for Success.....	613
<i>Jan Foecke, MS, RN, ONC</i>	
Benefits of Certification	614
Orthopaedic Nursing Knowledge	614
Self-Assessment	614
Study Timeline	614
Getting Organized	615
Test-Taking Strategies	615
Self-Knowledge	616
Test-Taking Personality	616
Anxiety Reduction	616
Study Resources	617
Appendix	619
<i>Christina Kurkowski, MS, ONC, CNOR, ANP-C, ONP-C</i>	
Key Terms	681
Index	687
