

ONRC or Bone Up? What's right for your facility?

Can't decide between hosting an Orthopaedic Nursing Review Course (ONRC) or Bone Up program? We're here to help.

	ONRC	Bone Up!
[01] Orthopaedic Nursing Review Course at your facility	x	X
[30] NAON memberships		X
[01] Copy of the <i>Core Curriculum for Orthopaedic Nursing, 7th Edition</i>		X
[01] Orthopaedic Nursing Self-Assessment CD		X
[01] Complimentary registration to NAON's Annual Congress		X

While we highly recommend our popular ONRC course, we suggest you explore the possibility of hosting a Bone Up instead. Our ONRC courses are exceptional, but after the course, it's up to your attendees to continue seeking growth on their own. By hosting a Bone Up course instead, your attendees (and facility!) are left with access to numerous helpful tools to utilize long after the course has ended, including a complimentary NAON membership.

Hosting an Orthopaedic Nursing Review Courses costs \$3,800; hosting a Bone Up costs \$6,475. While the price difference is around \$2,675 the additional benefits attendees receive from Bone Up courses are priceless. If your attendees are not NAON members and your institution could benefit from additional resources, go with the Bone Up!

Learn more about the [ONRC](#) and [Bone Up](#) programs on NAON's website. For any questions, contact NAON's Education Associate, [Jordan Winn](#).
