

SCHEDULE OF EVENTS - MARCH 8

NUR1 - Innovations and Accomplishments in Total Joint Arthroplasty, Shoulder Reconstruction, and Foot and Ankle Specialty

- 7:30am** **Welcome**
Tandy Gabbert, MSN, RN, ONC
Susan A. Scherl, MD
Angela N. Pearce, MS, RN, FNP-C, ONP-C
- Introductions**
Christy O'Laughlin, BSN, RN, ONC
Michael Blanchard, MD
- 7:45am** **The Perioperative Surgical Home for Orthopaedic Patients**
Colleen Walsh, DNP, RN, ONC, ONC-P, CNS, ACNP-BC
Outcome: Apply the information received to appropriate practice changes and develop innovative models of care delivery to promote high quality outcomes, enhance the patient experience, and improve patient satisfaction.
- 8:30am** **Total Hip and Knee Arthroplasty: Evidence-Based Practice and Emerging Trends**
Jeanette Jumawan, MSN, FNP-C, ONC
Kelly Jackson, MSN, NP-C, RNFA, GRN
Outcome: Implement relevant best practices and emerging trends presented in this session to improve care in total hip and knee replacement patient populations.
- 9:15am** **Quality in Recovery Following Lower Limb Arthroplasty**
Louise Strickland, RN, MSc, BN, CNOR, RNFA
Thomas Hamilton, BSc (Hons), MBChB, MSc, MRCS
Hermant Pandit, MBBS, MS, FRCS, D Phil
Outcome: Examine evidence-based findings on postoperative recovery and pain management strategies in this presentation and incorporate appropriate strategies in the care of the arthroplasty patient in the clinical practice setting.
- 10:00am** **Break**
- 10:15am** **Did We Get It Right? TJA Pathways: Making it fit when one-size may not fit all**
Laura Arkin, MSN, CNS, ONC, CCNS
Christopher Thibault, DPT
Stacey Wood, BSN, RN, ONC
Outcome: Review successful methods (including dividing up the care continuum and patient pathways) of improvement efforts to improve the care and outcomes for total joint arthroplasty (TJA) patients and implement suitable strategies in the clinical practice setting.
- 11:00am** **Innovations and Best Practices in Shoulder Reconstruction Surgery**
Michael O'Brien, MD
Outcome: Gain knowledge and perspective from the surgeon's standpoint regarding shoulder reconstruction surgery and adopt evidence based changes as appropriate.
- 11:30am** **Common Foot & Ankle Conditions and Treatment Options**
Michael Blanchard, MD
Outcome: Gain knowledge and perspective from the surgeon's standpoint regarding common foot and ankle conditions and treatment options and incorporate applicable information in patient care and patient education.
- 12:00pm** **Adjournment**

SCHEDULE OF EVENTS - MARCH 8

NUR2 - Driving the Future of Orthopaedic Trauma, Nurse Navigation, and Considerations/Outcomes related to Models of Care

- 1:30pm** **Welcome**
Tandy Gabbert, MSN, RN, ONC
Susan A. Scherl, MD
Mickey Haryanto RN-BC, MBA, ONC
- Introductions**
Christy O'Laughlin, BSN, RN, ONC
Christopher Wise, MD
- 1:45pm** **After the First Fracture: Interventions to Prevent Subsequent Fractures**
Doug Dirschl, MD
Eric Tuumees, MD
Deb Sietsema, PhD, RN
Outcome: Based on the education in this session, adopt interventions and patient education strategies in the clinical setting that will improve outcomes in the fragility fracture patient population.
- 2:30pm** **Pelvic Fractures - Good, Bad, Ugly**
Christopher Wise, MD
Outcome: Consider practice changes that could transform the Spinal and Total Joint patient's pre-surgical readiness and post-surgical recovery role into one of empowerment and ownership.
- 3:00pm** **Assessment and Repair of Ankle Fractures**
Walter Leclair, MD
Outcome: Apply knowledge gained to make applicable evidence-based practice changes related to the assessment and care of patients who have sustained an ankle fracture.
- 3:30pm** **Break**
- 3:45pm** **Improving Orthopaedic Patient Outcomes through Nurse Navigation**
Miki Patterson, PhD, NP, ONP-C
Pamela Cupec, MS, RN, ONC, CRRN, ACM
Outcome: The learner considers the information and implement applicable strategies to enhance the patient experience and improve patient outcomes.
- 4:30pm** **The Impact of Bundled Care on Outcomes Following Elective Primary Total Knee or Hip Arthroplasty**
Laura Arkin, MSN, CNS, ONC, CCNS
Ellen Reising, MSN, CNS, RN, ACCNS-AG, OCN
Outcome: Based on literature, data and outcomes presented in session, the learner applies proven approaches to care and care pathways for joint replacement patients.
- 5:15pm** **Cost Model for Osteoarthritis: A Shared Decision Model for Prevention & Treatment Options**
Charla Johnson, MSN, RN, ONC
Mary O'Connor, MD
Outcome: As a result of knowledge gained in this session, the learner will have greater confidence discussing the knee osteoarthritis cost model to engage patients in healthy behaviors, such as the relationship between movement and the development of arthritis and co-morbid conditions of heart disease.
- 6:00pm** **Adjournment**
-
-

SCHEDULE OF EVENTS - MARCH 9

NUR3 - Best Practices in the Pediatric Patient Population; Orthopaedic Radiographic Interpretation for the NP/APN

- 7:30am** **Welcome**
Tandy Gabbert, MSN, RN, ONC
Susan A. Scherl, MD
Angela N. Pearce, MS, RN, FNP-C, ONP-C
- Introduction**
Jill Ariagno, MSN, RN, CNP
Donna Pacicca, MD
- 7:45am** **Skeletal Dysplasia...more than Achondroplasia**
Colleen Ditro, DNP, CPNP
Outcome: Gain knowledge and, if applicable, implement practice strategies to address complex orthopaedic needs of the patient with a skeletal dysplasia and improve outcomes..
- 8:30am** **Common Entities and Treatments seen in Pediatric Sports Medicine**
Donna Pacicca, MD
Heather Barnes, DNP, CPNP, APRN, RN, ONC
Outcome: Utilize outcomes and evidence to drive treatment and best practices in the care of the pediatric patient with a sports related musculoskeletal injury.
- 9:15am** **Pediatric Musculoskeletal Infection: Evaluation, Treatment, and Quality Improvement**
Lawson Copley, MD
Outcome: Incorporate evidence based care strategies in the clinical setting to improve outcomes in the care of the pediatric patient with a musculoskeletal infection.
- 10:00am** **Break**
- 10:15am** **Lawnmower Injuries – a Request for Advocacy**
Dale Jarka, MD
Outcome: Implement practice changes in the clinical setting that reflects evidence; develop a script reflecting advocacy for lawnmower injury prevention for patients, parents and community.
- 11:00am** **Orthopedic Radiologic Interpretation**
Richard Dushuttle, MD
Cynthia Devine, APRN, FNP-C
Outcome: Gain confidence and understanding of general orthopedic diagnoses and treatments concerning radiographic studies in order to communicate radiographic results and, as applicable, evaluate and treat patients.
- 12:00 pm** **Adjournment**

SCHEDULE OF EVENTS - MARCH 9

NUR4 - What's Hot! Managing Outcomes for Patients through Proactive Prevention Strategies, Innovative Models and Performance Improvement

- 1:30pm** **Welcome**
Tandy Gabbert, MSN, RN, ONC
Susan A. Scherl, MD
Mickey Haryanto RN-BC, MBA, ONC
- Introduction**
Jill Ariagno, MSN, RN, CNP
Dale Jarka, MD
- 1:45pm** **Prevention of Postoperative Venous Thromboembolism: Risk Stratification for Optimal Patient Outcomes**
MaryAnne Cronin, PharmD
Eugene Krauss, MD
Outcome: Improve patient safety and efficacy in preventing postoperative venous thrombosis through proven strategies to determine level of risk for postoperative thrombus while optimizing patient outcomes.
- 2:30pm** **Pain Management in the Orthopaedic Population**
Robin Evans, MSN, RN
Lisa Welsh, RN, BSN
Outcome: Utilize information on orthopaedic pain management to develop an appropriate plan of care and improve patient outcomes.
- 3:15pm** **Comorbidities, Complications, and Risks in the Orthopaedic Patient Population**
Mickey Haryanto, RN-BC, MBA, ONC
Outcome: Apply knowledge gained to make applicable evidence-based practice changes to improve outcomes in the orthopaedic patient population.
- 3:45pm** **Break**
- 4:00pm** **Face-to-Face Meetings with Surgical Patients Before Hospital Discharge: Effect on Telephone Follow Up Reach Rates, Emergency Department Visits and Hospital Readmissions**
Franz Henryk Vergara, PhD, DNP, RN, ONC, CCM
Nancy Sullivan, DNP, RN
Outcome: Consider the potential benefit of face-to-face meetings for elective orthopaedic surgery patients to improve quality of care and reduce readmissions; adopt applicable strategies shared.
- 4:45pm** **Utilizing Multidisciplinary Team Expertise to Meet and Manage the CJR Initiative**
Cathy Rosenberg, MSN, ARNP-BC
Victor Hernandez, MD, MSc
Outcome: Adopt proven strategies that engage the interprofessional team to improve patient outcomes and the quality of care through patient care redesign and decreasing length of stay.
- 5:30pm** **The New Paradigm Shift Total Joint Replacement: Focus on improved patient outcomes and cost effective delivery of quality patient care related to blood transfusion in the emerging venue of pay-for-performance and bundled payments**
Nicole Popluhar, BSN, CNOR, ONC
Outcome: Based on information gained, implement appropriate practice changes in the clinical setting to improve practice and to improve patient outcomes.
- 6:00 pm** **Adjournment**
